Veterinary Services

All cattle sold by RL Pastoral have been veterinary soundness evaluated, semen tested by Wise Repro.

Dr Ced Wise • M: 0428 718 640

All bulls sold by NIOA Santa Gertrudis have been evaluated and semen tested by John Chapman • SEQ Genetics.
Certificates and credentials available on request.

Guarantee: All Riverina and NIOA Santa Gertrudis cattle are guaranteed breeders. To ensure the highest degree of confidence with regards to your purchases, all sale bulls are soundness evaluated, semen and morphology tested prior to sale to ensure we have taken every step to ensure your purchases are fit and ready to work. Any claim against the breeding ability of any animal should be made in writing and accompanied by a veterinary certificate within six months of sale. In the event of an animal failing to breed, it may be either replaced with an animal of comparable value or credit will be given to be used at the following sale or on a private sale animal.

Vendor Rebate: The vendors agree to pay 4% rebate to outside agents who introduce buyers in writing at least 24 hours prior to sale, accompany client to sale and settle all accounts in full no later than Thursday 10th September 2026.

A 2% rebate to all agents who introduce buyers at least 24 hours prior to sale and settle in full all accounts no later than Thursday 10th September 2026.

Delivery will be given from midday Friday 4th September 2026. All sale cattle will be handled only through the delivery agent (APL Summer Co) and no cattle to be loaded without approval of agents.

No bulls are to be mixed in yards prior to loading, with point of delivery being designated at the Talgai Homestead sale yard facility.

NIOA will work with clients to arrange delivery of NIOA bulls to buyers' property or central convenient location.

RL Pastoral will deliver Riverina Bulls bulls to Casino, Dalby, Roma, Emerald, Clermont

Settling Agent is Elders. All accounts to be settled with Elders and we ask that the buyers' instruction sheet at the back of the sale catalogue be completed and handed in at the completion of the sale.

NIOA and RL Pastoral bulls have been vaccinated for/with:

- Botulism
- 7-1
- Pestigard
- Vibrio
- 3 day sickness

All NIOA lots have been blooded. RL Pastoral bulls going into tick infested areas will be blooded in consultation with buyers.

Both herds are rated Johnnes JBAS -6.

Online Bidding: The sale will be interfaced by Stocklive. We encourage bidders to pre-register to ensure successful connection and approval to bid.

All lots will be photographed and videoed prior to sale and be able to be viewed on both sale platforms along with the web site pages for NIOA Pastoral and RL Pastoral.

Buyer disclosure: NIOA & RL Pastoral companies are separate business entities.

Welcome

NIOA SANTA GERTRUDIS

NIOA
SANTA GERTRUDIS

Welcome to the 2026 NIOA RL Pastoral Sale at Talgai Homestead as we gather on Queensland's beautiful Southern Downs in the first week of spring to showcase this year's offering. Following our strongest sale ever last year, we are pleased to present a draft that builds on proven performance and sustained investment in elite genetics.

In 2025, buyers from across Queensland, New South Wales and the Northern Territory helped drive a 96 per cent clearance and a sale gross of \$874,500, underpinned by outstanding demand for sons of industry-leading sires Yarrawonga Spartacus S316 (P) and Riverina Roland Sanchez R088.

Importantly, the strength of the offering was reflected in the NIOA draft itself, with the 34 NIOA Classified bulls achieving a 100 per cent clearance under the hammer and averaging \$13,264—a result that reinforces both the consistency of our program and the confidence buyers have in these genetics.

This year's catalogue continues that momentum, featuring 19 bulls sired by Yarrawonga Spartacus and eight sons of Riverina Roland Sanchez, showcasing the ongoing impact of these record-setting sires across the program. And for the first time this year the NIOA line-up features the Cree Santa Gertrudis bloodline with six sons of 2023 sale topper Cree Jackaroo T042 (PS).

It reflects the clear direction of our breeding program and our long-term commitment—to produce cattle that deliver real-world outcomes in fertility, weight for age, structural integrity, temperament and adaptation to northern environments. Every animal we offer is the result of more than a decade of disciplined selection, data-driven decision-making and the integration of technologies including AI, ET and IVF.

Our herd, under the management of Shannon Gardner, is built on a combination of elite Australian and American bloodlines, carefully selected to balance phenotype, performance and carcass merit while maintaining true Santa Gertrudis type.

Continued investment in proven female lines from leading studs has further strengthened the depth and consistency of our program.

The influence of foundation sires and more recent record-breaking acquisitions is now clearly evident, with their progeny demonstrating the kind of quality and uniformity that buyers expect.

In 2026, we again offer a line-up designed to meet the needs of both stud and commercial operations. Whether you are seeking to introduce new genetics, add performance depth, or secure a standout herd sire, this sale represents an opportunity to invest in cattle bred with purpose and backed by performance.

To our returning clients and those attending for the first time—on property and online—we thank you for your continued support and interest in NIOA RL Pastoral. Enjoy the sale!

Rob & Eliza Nioa and family

Rob & Eliza Nioa and Family
NIOA Santa Gertrudis

RL Pastoral Company

RL PASTORAL COMPANY

Rob, Lorraine and Andrew Sinnamon have much pleasure in joining with Rob and Eliza Nioa (and family) in extending a warm welcome back to the 2026 NIOA RL Production sale.

Now in our fifth year of selling together, we are most appreciative of the ongoing support from new and repeat buyers of our genetics.

Santa Gertrudis have very much been in the DNA of the Sinnamon family since 1970, when my parents first registered Robenlea.

That ongoing commitment remains today; strong and resolute; as our Riverina prefix continues, for the past 49 years.

Whilst proud of our past heritage and success with Santa Gertrudis, we remain determined to continue to breed *commercially focussed, industry relevant* seedstock that deliver year after year.

Our focus on producing cattle that provide global industry leading Poll Santa Gertrudis genetics remains strong and recent years have seen determined focus in growing our business.

We have exciting plans, that as we continue to evolve, will see our livestock business expand. Our next generation females now carry some of the most elite bloodlines available globally, are maturing and we look forward to sharing their production in coming years.

Thank you for your ongoing interest in what we do, and look forward to warmly extending a “welcome back” to this year’s NIOA RL Sale.

Overview

NIOA SANTA GERTRUDIS

NIOA
SANTA GERTRUDIS

NIOA Santa Gertrudis continues to build momentum with sustained investment in elite sires driving the next phase of its breeding program and reinforcing its reputation for performance-driven, commercially relevant cattle.

Established in 2014 following the Nioa family's acquisition of the historic Talgai Homestead, the stud has remained anchored in the rich Santa Gertrudis heritage of the Allora–Warwick region.

Today, that legacy is being advanced through a deliberate, strategic focus on genetic improvement, with increasing emphasis placed on sourcing leading Australian and international bloodlines.

In recent seasons, NIOA has taken this approach to another level, making significant investments in high-impact sires designed to strengthen both phenotype and productivity across the herd.

Central to this “new design” genetic program is Yarrawonga Spartacus S316 (P), the 2022 Australian record-priced bull, whose structural soundness, carcass traits and breed character have set a new benchmark within the operation.

He is complemented by Riverina Roland Sanchez R88 (PP), a former \$160,000 record-holder bringing a powerful infusion of imported US genetics. Together, these sires have formed the backbone of NIOA's genetic program, with extensive use through natural service, artificial insemination and IVF to accelerate herd improvement.

Building on this strong foundation, NIOA has again moved decisively to enhance its sire battery, securing three new bulls during the most recent spring sale season. Leading the purchases was Jamar Valentino V06 (P), acquired for \$40,000, a standout young sire offering strong outcross genetics, impressive growth metrics and the structural and visual appeal required for modern breeding objectives.

Further additions include Watasanta Visionary 3210 (PP), selected for his depth of pedigree and performance, and Coulsonview Unreal (P), an exciting young prospect bringing additional versatility to the program.

Each was chosen to complement existing bloodlines and ensure continued alignment with NIOA's focus on fertility, soundness and commercial return.

Importantly, these new sires are not standalone acquisitions but form part of a broader, integrated breeding strategy. They will be used to build on the proven influence of Spartacus and Sanchez, taking those bloodlines forward while introducing fresh genetic diversity to maintain hybrid vigour and adaptability.

Underpinning this program is a carefully constructed cow herd, originally based on the acquisition of selected females from leading studs including Glen Oaks, Yulgilbar, Rosevale, Talgai, Bullamakinka, Santalands Goolagong, Riverslea, Tookey Creek and Gylanda.

Not only are NIOA-bred females now performing at industry-leading levels in both the show ring and commercial production, they are also commanding strong market recognition, highlighted by the 2022 sale of NIOA Lucy Q14 (P) for \$50,000 and the sustained success of NIOA Helena R03 at local shows.

Looking ahead, NIOA's ongoing acquisition of elite sires, combined with expansion of its landholding and continued use of advanced breeding technologies, positions the stud for further growth.

The focus remains clear: to produce high-performance poll cattle that deliver on productivity without compromising the hallmark traits of the Santa Gertrudis breed.

By continuing to invest heavily in top-tier genetics, NIOA Santa Gertrudis is not only strengthening its own herd but also contributing to the broader advancement of the breed—ensuring its cattle remain competitive, profitable and fit for the future of the beef industry.

Overview

RL PASTORAL COMPANY

RL Pastoral Company

Owned and operated by RL Pastoral Company Pty Ltd, Riverina Stud #1070 was established in 1977 by Rob Sinnamon.

Originally located on the Sinnamon family property at Harlin in South-East Queensland, Riverina was based on predominantly Robenlea (founded 1970) bloodlines owned by Rob's parents, Ron and Lynley Sinnamon. St Helena and Bolinda Vale females were also acquired in the early years. Riverina was run in conjunction with Robenlea until 1988, with progeny bred, subsequently integrated into this herd as Rob became a partner in the Sinnamon family "Robenlea" Santa Gertrudis business.

The cattle were initially run at "Torryburn" at Harlin (1977-1994), "Dingyarra" at Toogoolawah (1987-2002) and later at "Peek-a-doo", Taroom (1998-2002). Notable cattle produced during this period included, the \$38,500 top price bull at the 1988 annual Robenlea sale – Riverina Jim Beam purchased by Murrumbo Santa Gertrudis Stud. Riverina Julia was also a top female selling privately to Dave Christensen for \$25,000 in 1987.

With the dissolution of the Sinnamon family partnership in 2002, Rob, Lorraine and Andrew Sinnamon moved to manage Yulgilbar Station at Baryulgil in North-East New South Wales for the Baillieu Myer family. A small number of Santa Gertrudis females were moved to Yulgilbar at that time. A top quality Yulgilbar female (Yulgilbar Wine) was subsequently acquired by son Andrew who went on to win Reserve Senior Champion Cow at the 2005 Brisbane Royal as well as winning multiple interbreed championships throughout Northern Rivers shows. By 2012 Rob and Lorraine began progressively purchasing at auction, several Yulgilbar Stud females and began to build their stud cattle numbers once again.

Riverina was fortunate to be able to sell sale progeny through the Yulgilbar Annual Production Sale, with the stud's cattle regularly among the top money earners at this annual event. Riverina bred bulls topped the 2014 sale and second top money at the 2018 (\$31,500) and 2021 (\$28,000) sales, respectively.

In 2017, Rob and Lorraine Sinnamon purchased the Kyogle district property "Mayfield" as a future base to accommodate the growing number of top-quality stud females. At this time Rob and Lorraine commenced trading their personal business interests as RL Pastoral Company.

Rob Sinnamon has long advocated breeding "industry focused, commercially relevant cattle" right back to his Sinnamon family partnership days at Taroom and the Brisbane Valley.

The Riverina Santa Gertrudis herd has been bred based around this philosophy. Rob's past 20 years' experience as General Manager at Yulgilbar Pastoral Company saw this adoption of breeding cattle based around these criteria, with exceptional success in validating the direction of his breeding objectives through wide success in steer and carcass competitions.

Rob has long applied these values to the breeding program at Riverina, underpinning his convictions and backing his judgment, by continually sourcing and purchasing at auction, (for full disclosure) base genetics for Riverina from the best seedstock cattle he bred at Yulgilbar for the Baillieu Myer family.

RL PASTORAL ADVISORY PTY LTD

Rob operates his advisory services under RL Pastoral Advisory Pty Ltd and is also now available to consult more broadly.

Services offered encompass a wide range of agricultural and pastoral pursuits, drawing on a lifetime of management experience across a diverse range of environments and business. He is ready to assist with property acquisition, business planning, budgeting and property development. Genetic selection and development of cattle programs (of all breeds) that suit your environment and aspirations. Marketing plans, staff acquisition and training are amongst the services offered.

In addition to the purchase of genetics, encompassing the most successful bloodlines from Yulgilbar, Riverina has acquired further top priced females from several Santa Gertrudis seed stock producers at auction including:

Bullamakinka	Diamond H	Kemmis Creek	Tookey Creek	Tyndale
Welbatch	Burramurra	Nangaringa	Gyranda	Jamar

In 2018 longtime client of the Sinnamon family, Clinton Wheatley from Western Australia also approached the growing business and subsequently entered a joint venture with Riverina on several elite females that Clinton has purchased with the resultant progeny through Embryo transfer, IVF and natural production being sold in partnership. Several top-quality females were acquired including Successful show cows – Yulgilbar Mississippi (\$30,000), Yulgilbar Nightingale (P) (\$50,000), NIOA Lucy (P) (\$50,000), Murgona Magenta (\$25,000) and Jamar Ribbon for (\$20,000).

The Spring of 2021 saw Riverina Santa Gertrudis Stud mate 150 stud females.

Embryo transfer and IVF continue to be utilised to multiply high quality genetics, including semen from Red Doc Never Better (USA) sold in the US for AU\$197,000; along with the purchase of embryos from Glen Oaks and NIOA show females.

Sale cattle are available for sale both privately and by auction. In March 2022 saw Rob and Lorraine complete a 20-year term with Yulgilbar Pastoral Company. The Sinnamon family is excited to continue to grow and expand their private business interests, trading as RL Pastoral Company.

In April 2002, Rob and Eliza Nioa (NIOA Santa Gertrudis Stud), along with Rob and Lorraine Sinnamon signed a strategic partnership agreement to market their seedstock in an annual production sale. This sale saw the then Australian record broken for the sale of Riverina Roland Sanchez (R88) (PP) (ET) for \$160,000 and the Riverina draft of bulls averaging \$22,400.

Separately, Rob Sinnamon is also providing advisory services to NIOA, assisting in the ongoing growth of the NIOA Pastoral Company including their seedstock operations and the acquisition of two additional properties adjoining Talgai Homestead.

Andrew Sinnamon returned in 2023 to assist with running the business while also pursuing his other future aspirations.

Since 2022 RL Pastoral has continued to grow and strengthen their seedstock business. Riverina Prefix cattle have now topped the 2022, 2023, 2024 and 2025 sales.

RIVERINA U-TUBE U96(IVF)

Grand Champion Santa Gertrudis Bull North Coast National 2024 Sired by Yarrowonga Spartacus and from NIOA Lucy

DUNDEE ULTRA (P)

RIVERINA SHOW RESULTS

The stud has enjoyed considerable success in the show ring since recommencing showing in 2022. At a limited number of shows, Riverina has won a significant number of Interbreed Champions at a limited number of Shows including:

- Junior Interbreed Champion Bull at Grafton 2022 (Bull Classic)
- Supreme Exhibit at Casino Beef Week 2022 (different bull)
- Reserve Junior Champion Interbreed bull Kyogle 2023
- Calf Champion Santa Gertrudis Bull Brisbane Royal 2023
- Reserve Champion Interbreed Cow and Champion Santa Gertrudis Casino Beef Week 2024
- Calf Champion Bull Beef Australia 2024 (Rockhampton)
- Reserve Champion Santa Gertrudis Cow Beef Australia 2024 (stood second to the Interbreed Champion cow)
- Reserve Senior Champion Bull 2024 Brisbane Royal
- 1st Breeders and Sires Progeny Groups Brisbane Royal 2024
- Grand Champion Santa Gertrudis Bull and Female 2024 North Coast National 2024
- Supreme Champion allbreeds bull and Grand Champion Santa Gertrudis Bull Inverell Feature Show 2025
- Junior Champion Bull Inverell Feature Show 2025
- Reserve Junior Champion female Inverell 2025
- Reserve Senior Champion Cow Brisbane Royal 2025
- Winner Interbreed Herdsman Competition Brisbane Royal -2022, 2023, 2nd in 2024 and highly commended 2025

Winner interbreed breeders and sires progeny groups, Casino Beef Week 2026

Brisbane Royal Show 2025

- 1st female 14-16 month's class- Riverina U Sparkle U117
- 2nd Bull 22-24 month's class – Riverina U-Tube U96 (IVF) (PP)
- 2nd Female 36 months and over – Riverina Sparkle S9 (PP)
Reserve Senior Champion Cow
- 2nd Sires Progeny Group – Yulgilbar Queens Council Q100 (PP)

Lismore North Coast National 2025

- Junior Champion heifer Riverina U-Sparkle U117 (PP)
- Senior and Grand Champion Cow – Riverina Sparkle S9 (PP)
- Reserve Senior Champion Bull- Riverina Townsville T18 (PP)
- Senior, Grand Champion bull and Supreme Santa Gertrudis exhibit – Riverina U-Tube U96 (PP) (IVF)
- Breeders Group – Riverina U~Tube, Sparkle, U Sparkle
- U-Sparkle – 3rd Interbreed Junior Show

Reserve Senior Champion Cow, Brisbane Royal 2025 – Riverina Sparkle S9(PP)

Casino Beef Week 2026

Casino Beef Week Stud Cattle 2026 was a memorable day for RL Pastoral Company. A total of 143 entries across 13 breeds were judged in an interbreed format, by Hayden Green from Summit Livestock, Crookwell, NSW.

3 entries from RL Pastoral Companies, Riverina Santa Gertrudis stud based at "Mayfield", Kyogle were exhibited.

A senior bull and 2 cows and calves rounded out a most successful day winning 10 ribbons. Riverina U-Tango U95 (PP) (IVF) won the 24–30 months female from a very strong field of 18 entries.

Riverina U-Can U111 (PP) (IVF) was then successful in winning the 30 months and over female class from a strong field of 14 entries.

Riverina U-Tango U95 was then successful in claiming Senior Interbreed Champion female of Casino Beef Week, while her stable mate, Riverina U-Can U111, backed up winning Reserve Senior Champion Interbreed female.

Riverina U-Tube U96 (PP) (IVF) was successful in placing 2nd in a very strong Senior Bull class.

Continuing form from the team saw the 3 entries from the stud claim both the prestigious Interbreed Breeders Group and also the Interbreed Sires Progeny Group.

All 3 entries were sired by the Current Australian record price (\$250,000) Santa Gertrudis Sire – Yarrawonga Spartacus S316(P).

Rounding out the day, Riverina U Tango Y95 was awarded Supreme exhibit for the Santa Gertrudis breed, while Riverina UTube stood second!

Riverina U Tango U95 was then awarded Reserve Champion All Breeds Supreme exhibit of Casino Beef Week.

Senior Interbreed Cow and Reserve Supreme exhibit Riverina U-Tango U95

RECENTLY SOLD BULLS

RIVERINA ULYSSES U68(PP)

Sold for \$40,000 to
Daniel Stoten, Doon Doon NSW

RIVERINA U-ROCK U108

Sold for \$20,000 to
Doris McKay (Torres Park)

RIVERINA UNDERTAKER U58 (PP)

Sold for \$20,000 to Bill and Dallas Scott,
"McDonald Downs", Alice Springs NT

RIVERINA ROLAND SANCHEZ

Sold for \$160,000
to NIOA & Clinton Wheatley

RIVERINA REMINGTON RO44 (P)

Sold for \$35,000
to Tonlena & Canowindra

RIVERINA TAMBO

Top Price bull 2024 NIOA RL Sale
selling for \$22,500 to Craig Ross

Cattle Selection and Breeding Philosophy

Both RL Pastoral Company and NIOA Santa Gertrudis advocate a balanced assessment criteria for cattle selection. This combines visual appraisal for structural soundness, temperament and overall conformation.

Fertility testing and soundness evaluation are considered essential tools. All Riverina bulls are soundness evaluated, manually palpated for crush side semen collection by Ced Wise AB; and morphology tested at Rocky Repro. Rob believes semen and morphology testing should be about assisting the stud master ensuring all bulls offered for sale are fit and ready for work.

NIOA

SANTA GERTRUDIS

RL Pastoral Company

Herd Health

Vaccinated for 7-1, 3-day sickness, vibrio, botulism, pesti-guard and tested negative for Pesti-virus sale bulls are blooded	Prudent consideration of raw measurement data including weight, daily weight gain, frame score, actual scrotal measurement, eye muscle area and fat scans	Full support of the classification system. Both studs undertake to authorise the sharing of DNA profiles of lots to the successful purchaser	Both studs are registered with Santa Gertrudis Group BREEDPLAN
--	---	--	--

Riverina Santa Gertrudis was an early adopter of the use of DNA testing including testing for horn/poll, parent verification, and implementation of Single Step genomically enhanced EBV's; along with verification of testing free of Pesti virus through Zoetis, while NIOA Santa Gertrudis DNA profiles are tested through Neo-gen.

Rob Sinnamon believes that selection of extremes should always be approached with caution. He advocates that single trait selection for any characteristic is dangerous and lacks balance in any breeding program. The use of a combination of the many available “tools” for selection in the industry today is valuable and allows the discerning cattle person to be far more informed about livestock selections than ever before.

BREEDPLAN GUIDE TO ANIMAL SELECTION

TIP SHEET

The breeding decisions that a beef producer makes today will have a significant impact on the genetic progress and associated profitability of their herd into the future. Profitability of the herd will be influenced by the number of calves (fertility), the weight of the calves (growth) and the quality of the calves (carcass), less the cost of production. All of these components are influenced by genetics.

With the selection and purchase of an individual breeding animal being a long-term investment, it is important that beef producers take care to select the most profitable animals for their particular production system.

BREEDPLAN BEST PRACTICE GUIDE TO ANIMAL SELECTION

BREEDPLAN recommends using selection indexes (where available) as part of a selection strategy which also includes other selection tools (e.g. EBVs and visual assessment). By initially ranking animals using an appropriate selection index, beef producers ensure balanced selection for traits important to their production system.

The BREEDPLAN best practice guide to animal selection is to:

1. Identify the selection index of most relevance to you.
2. Rank animals using the chosen selection index.
3. Consider the individual BREEDPLAN EBVs of importance.
4. Consider other traits of importance

For more information on EBVs, scan the QR code for a complete guide to animal selection by BREEDPLAN

COMMENTS

Possibly the growtthiest bull in this years draft.
Tremendous performance in terms of scale, depth of body creating huge volume in this sire prospect that exhibits ideal breed character and large testicle size. He is the first calf bred from T10 with a heifer recently weaned.

COMMENTS

A successful show bull, really admired for his overall volume and capacity. Tremendous breed character coupled with desirable length of body. His mother has had 4 recorded progeny (3 classified) and a calf recently weaned. 2 daughters have been retained in the stud. Impressive performance data set ranking this sire prospect on the top 1% breed for 200, 400 day growth, along with carcass weight.

COMMENTS

Impressive trait leading performance data combined with a desirable phenotype in this stand out stud sire prospect in this years sale offering. Magnificent breed character, well balanced with tremendous length of body. Structurally correct with a tidy sheath. R16 has produced 4 natural progeny to date (3 classified). Her first bull selling to Henshaw Nominees for \$10,000, her 2nd son sold at last years sale for \$9000 to Caranga Pastoral Company. W30 sells this sale and a calf has been recently weaned. W30 ranks in the top 1% breed for all growth indices along with carcass. Ranks in the top 5% for terminal index.

COMMENTS

Clean tropical coat type, long bodied sire prospect displaying tremendous breed character. Larger framed with a later maturity pattern. Mother is successful show cow and prolific breeder S03 She has produced 9 calves to date (8 classified) thru IVF and natural breeding. 5 sons have sold to a top of \$24,000 at last years sale to Dunlop Santa Gertrudis Stud, with Surbiton Station taking another at \$20,000 and Kemmic Creek taking a third at \$18,000. Genetically strong bloodline breeding consistently good seedstock. W20 ranks in the top 1% for 200 growth.

COMMENTS

A stand out sire prospect in this years draft. To be admired for his flawless structure, breed character and the outlook of a sire! Clean underline, this young sire expresses volume and capacity and true natural balance. N3 is sired by 777 Vegas 411(P) who the 2016 US National Champion in the US. N3 has had 3 progeny registered, all classified, with 2 daughters retained in the stud. A consistent performer across growth and carcass traits while ranking strongly across all indexes.

COMMENTS

New blood clean poll, superbly structurally correct, ideal sheath shape and design. Good breed character with commercially desirable phenotype. Panther was purchased as the top price Murgona bull selling for \$40,000 in 2022 by Clinton Wheatley. His mother Q21, has produced 4 calves (3 classified). A son sold for \$6,000 in 2024, a heifer retained in the stud, V22 sells this year and a heifer recently weaned.

COMMENTS

New blood! Be sure to consider this bull!

He is a combination of tropical phenotype style and breed characteristics. To be admired for his structural integrity, optimum sheath design and love his natural tropical skin type. Fast becoming a favourite!

Projects an outlook exuding balance and sire appeal. A862 has had 3 calves (2 classified) since purchase (2 classified and 1 calf died prior to weaning). A daughter is retained in the stud and V28.

COMMENTS

One of the good ones! Has the outlook of a sire and desirable breed character. A top sire prospect to be admired for his length and strength of spine, sound bone, volume and capacity. Structurally correct with a preferred long tail. P50 has had 3 calves. A daughter classified S-, a son sold at the 2024 years sale for \$6000, and V6.

COMMENTS

A larger frame long bodied rugged built bull admired for his structural correctness and cleanness of underline, while appreciated for his depth and capacity.

Stands on good bone. 328 was purchased at the Western Reds Sale for \$8,000. She has produced 4 progeny to date. Her first son was sold as a commercial bull, her second sold for \$7,000 to Evie Batt, V10 sells this year while a show quality bull is recently weaned. His performance data suggests a consistent performer across multiple traits.

COMMENTS

Typical commercially orientated shape consistent with his Australian record price sire. A great outlook, structurally correct with a dark tropical skin type. A real carcass sire designed to inject optimal body shape into his progeny. Love his length and overall balance.

V16 is S83's first calf. He was not eligible to be classified S.

Ranks top 5% for 200 day growth, top 5% for carcass, EMA and yield.

COMMENTS

Sells account Andrew Sinnamon. One of the youngest bulls in this years sale draft and needs to be appreciated for his all round performance and phenotype. Dark colour with a soft skin type poll scour, sound bone built correctly with good breed character and desirable testicular development. Praise P15 has had 3 progeny all classified "S". Her first bull was top price bull at the 2023 sale, selling for \$13,000 to Kemmis Creek, Nebo. A son sold for \$6,000 at last years sale while V96 sells this year. His maternal granddam produced 9 calves (6 classified) and a bull recently weaned. 4 daughters retained in the stud, while a son sold to McDonald Downs last year for \$20,000; and a daughter produced the \$40,000 sale topper at last years sale! Ranks top 5% breed for milk and IMF. A consistent performer over a broad set of data indices.

COMMENTS
Great length of body here, coupled with a clean sheath. Really admire the body capacity in this young bull. Q23 sire was sold for \$41,000 after being Reserve Champion Bull at Brisbane Royal and has had a significant impact over a spectrum of studs. Thru IVF and natural service, she has produced 11 registered calves to date (9 classified). 3 daughters have been retained in the stud. Her sons have sold to a top of \$14,000 to RPC at last year's sale with 4 sons averaging \$9,500. A further 2 bulls were sold privately. Ranks top 1% for all growth indices including carcass weight. Also ranks top 5% for terminal index.

COMMENTS

Long bodied and correct with a clean underline. Talgai I29 made a significant impact in the stud in earlier years. She produced 17 calves (13 classified) thru ET and natural matings. 4 daughters have been retained in the stud. Greg Kroll purchased a son and Jason Wolffe from Canowindra purchased another young show bull that performed well in that stud. W62 is her last naturally bred calf.

COMMENTS

Darker in colour stands on sound bone and structurally correct poll scur. Clean sheath deep bodied and softly made.

P245 has had 4 progeny recorded since purchase (all classified). Her first heifer was sold, her second calf was a successful show bull purchased in 2023 for \$10,000 to Alison and Tim Kirkwood from Disney at Clermont. Her next heifer sold to Lisa and Tim Wong at the 2025 sale and V94 sells this sale.

COMMENTS

V31 is long and correct!

N15 has had 4 calves, 3 classified. Her first bull sold to Wansey Downs for \$8,000, her next son was sold privately, and a commercial heifer was sold for breeding.

Performance data suggests V31 ranks in the top 5% for all growth traits and carcass traits. She has been running with Dundee Ultra (P) since 20/6/26 and sells with a straw of semen in Yarrowonga Spartacus (1 registration).

COMMENTS
V35 is feminine and correct.

N25 has produced 5 calves (3 classified calves and 1 recently weaned). Her first daughter sold to Nigel Ellverson for \$3,500; a herd bull sold privately, and another daughter also sold to Nigel Ellverson for top price female at \$6,000 at last year's sale.

V35 has been running with Dundee Ultra (P) since 20/6/26 and sells with a straw of semen in Yarrawonga Spartacus (1 registration).

Purchased by NIOA (7/8 share) and RL Pastoral (1/8 share) for what remains the current Australian Record price Santa Gertrudis bull selling for \$250,000 in 2022. A grandson of the legendary Yarrowonga Corvette, Spartacus epitomises the modern-day Santa Gertrudis beef bull. He combines desirable breed character with structural soundness and breed trait leading EBV's for 200 day growth, along with Scrotal size. Tremendous volume and capacity illustrated here in a phenotype that meets a wide range of market specifications. Exclusive Semen rights have recently sold back to the United States. 31 sons sold at the 2025 NIOA RL Sale to gross \$380,900, top at \$32,000 and average \$12,250. Early progeny shown have won Calf Champion bull at Beef 24, Grand Champion Bull at North Coast National (2024 and 2025) and Junior Champion heifer at Inverell feature show. Both NIOA and RL Pastoral have retained Spartacus sons for use in their respective studs. Eligible for export to Brazil, Argentina, Paraguay and South Africa.

Outcross genetics being 75% USA blood. Sold in 2022 for \$160,000 to NIOA and Clinton Wheatley from Western Australia in equal shares with RL Pastoral retaining a semen share. Ranks as a trait leader for 200, 400 and 600 day growth traits along with Carcass Weight. Flawless structure ,high growth, clean underline and Homozygous Poll. His first son shown was Reserve Junior Champion bull at Brisbane Royal in 2024. His sire sold in the US for the equivalent of \$197,000 Australian Dollars; while Riverina Roland Sanchez mother was Reserve Senior Champion Cow at Brisbane Royal and was sired by the 2016 US National Champion Bull in 777 Vegas 411 (PP). The Australian blood component in his pedigree traces back to the long time held Australian Record price bull in Warenda Sahara (PP).
